An Independent Board Committee, comprising all of the independent non-executive Directors of the Company, namely Mr. Wu Jichuan, Mr. Qin Xiao, Mr. Tse Hau Yin, Aloysius, Madam Cha May Lung, Laura and Mr. Xu Erming, has been formed to advise the Independent Shareholders in respect of the Telecom CDMA Lease. The Board (excluding the members of the Independent Board Committee, the opinion of which, after taking into account of the advice from the Independent Financial Adviser, is included in the section "Letter from the Independent Board Committee" in this circular) is of the view that the Telecom CDMA Lease and its supplemental agreement and the transactions contemplated thereunder have been entered into in the ordinary and usual course of business of the Group, that they are on normal commercial terms, that they have been implemented in accordance with the terms contained therein, and that they, as well as the Annual Caps applicable thereto, are fair and reasonable and are in the interests of the Company and its shareholders as a whole.

The purpose of this circular is to provide you with information regarding the resolution to be approved at the EGM relating to the Telecom CDMA Lease and its supplemental agreement and the continuing connected transactions contemplated thereunder.

CONTINUING CONNECTED TRANSACTIONS WITH CHINA TELECOMMUNICATIONS CORPORATION UNDER THE TELECOM CDMA LEASE

The Independent Shareholders of the Company approved, amongst other things, the continuing connected transactions contemplated under the Telecom CDMA Lease and Annual Caps applicable thereto, at an extraordinary general meeting of the Company convened on 16 September 2008.

LETTER FROM THE BOARD

Telecom CDMA Lease

Pursuant to the Telecom CDMA Lease, China Telecommunications Corporation has agreed to lease the Capacity under the CDMA Network to the Company and the Company shall have the exclusive right to use and operate the CDMA Network to provide CDMA Services in the Listed Service Areas. The Telecom CDMA Lease will expire on 31 December 2010 and can be renewed at the option of the Company on the same terms, except as to the term, lease fee and minimum annual lease fee to be agreed between the Company and China Telecommunications Corporation, by the Company giving not less than 180 days' written notice to China Telecommunications Corporation on or before 31 December 2010.

The Company and China Telecommunications Corporation have entered into a supplemental agreement on 25 August 2010 to renew the Telecom CDMA Lease in accordance with its provisions for a further term of two years expiring on 31 December 2012.

Lease Fee and Minimum Annual Lease Fee

Pursuant to the Telecom CDMA Lease (as amended by its supplemental agreement), the lease fee for the Capacity under the CDMA Network shall be 28% of the audited CDMA Service Revenue. For the year ending 31 December 2011 and 2012, the minimum annual lease fee shall be 90% of the total amount of the lease fee paid by the Company to China Telecommunications Corporation in the previous year.

The lease fee shall be calculated on the basis of the unaudited CDMA Service Revenue of the Company during each quarter and shall be paid quarterly in arrears by the Company to China Telecommunications Corporation within 30 days following the end of each quarter (the "**Quarterly Lease Fee**"). The Company shall issue a report in respect of its unaudited quarterly CDMA Service Revenue to China Telecommunications Corporation within 20 days from the end of each quarter. The report shall be prepared in an appropriate format and contain the unaudited quarterly CDMA Service Revenue of the Company and the quarterly lease fee payable by the Company, calculated on the basis of the unaudited quarterly CDMA Service Revenue.

After the Company finalises its annual audited financial statements, China Telecommunications Corporation and the Company shall adjust the lease fee as soon as practicable as follows:

- (i) if the lease fee of any year calculated on the basis of the audited CDMA Service Revenue as set out in the audited financial statements (the "**Annual Lease Fee**") is greater than the sum of the Quarterly Lease Fee, the Company shall pay the difference to China Telecommunications Corporation as soon as practicable; and
- (ii) if the Annual Lease Fee is less than the sum of the Quarterly Lease Fee, China Telecommunications Corporation shall refund the difference to the Company as soon as practicable.

LETTER FROM THE BOARD

Provided that, if the total lease fee paid by the Company in respect of the relevant year pursuant to the above payment adjustment is less than any applicable minimum annual lease fee, China Telecommunications Corporation does not have to refund the amount in (ii) above and the Company shall pay an additional amount (where applicable) to China Telecommunications Corporation as soon as practicable so that the total lease fee paid for the year is not less than the applicable minimum annual lease fee (if any).

The lease fee under the Telecom CDMA Lease was determined and agreed between the Company and China Telecommunications Corporation after arm's length negotiations with reference to the number of CDMA subscribers, the MOU and ARPU of such CDMA subscribers, the estimated CDMA Service Revenue, estimated total depreciation and amortisation and relevant financial charge as a percentage of revenue of peer companies.

Discount for Delay

Subject to certain exceptions, including delay caused by a force majeure event, a material breach of the Telecom CDMA Lease by the Company or as a result of compliance by China Telecommunications Corporation with applicable laws and regulations, if China Telecommunications Corporation fails to provide any Capacity which affects the provision of services by the Company, China Telecommunications Corporation shall be liable to provide a discount for delay to the lease fee to the Company, calculated as follows:

$$\text{Discount for delay} = \frac{\text{Number of CDMA subscribers of the Company affected by the delay}}{\text{Number of CDMA subscribers}} \times \frac{\text{delay period (number of days)}}{\text{the number of days in the relevant month}} \times \frac{\text{ARPU of CDMA subscribers}}{\text{the number of days in the relevant month}}$$

In the above formula, the "number of CDMA subscribers of the Company affected by the delay" shall be determined by the Company with the support of reports and substantive evidence; the "ARPU of CDMA subscribers" shall be the average monthly ARPU figure of the CDMA subscribers in the affected areas for the three months immediately prior to the delay, as calculated and determined by the Company.

Discount for delay shall be set off against the next instalment of lease fee to be made by the Company to China Telecommunications Corporation.

Network Construction Costs and Operating Costs

China Telecommunications Corporation shall be responsible for the planning, finance and construction of the CDMA Network and shall ensure that the CDMA Network is constructed in accordance with the detailed design standards, specifications and timetable agreed between the Company and China Telecommunications Corporation. All payments, costs, expenses and amounts paid or incurred by China Telecommunications Corporation that are directly attributable to the construction of each phase of the CDMA Network, capitalised interest on loans, any taxes levied or paid in respect of the equipment procurement and the construction

LETTER FROM THE BOARD

of the CDMA Network and all costs incurred in relation to any re-configuration, upgrade, enhancement or modification to technology (together, the “**Network Construction Costs**”) shall be borne by China Telecommunications Corporation. Such cost shall be audited and verified by the Company and its auditors.

The Company shall be responsible for the operation, management and maintenance of the CDMA Network in accordance with the Telecom CDMA Lease. The Capacity Maintenance Related Costs (as defined below) shall be shared between the Company and China Telecommunications Corporation and calculated as follows:

- (a) the percentage of operating cost borne by China Telecommunications Corporation:

$$\frac{\text{Total Capacity} - \left(\frac{\text{Total number of actual CDMA subscribers of the Company at the end of the month prior to the occurrence of the cost}}{90\%} \right)}{\text{Total Capacity}}$$

- (b) the percentage of operating cost borne by the Company:

$$\frac{\left(\frac{\text{Total number of actual CDMA subscribers of the Company at the end of the month prior to the occurrence of the cost}}{90\%} \right)}{\text{Total Capacity}}$$

The “**Capacity Maintenance Related Costs**” referred to above mean the rental fees for the exchange centres and the base stations and other related fees such as water and electricity charges, heating charges and fuel charges for the relevant equipment etc., as well as the maintenance costs of a non-capital nature. Other costs relating to the operation and management of the CDMA Network shall be borne by the Company.

Purchase Option

China Telecommunications Corporation has granted to the Company an option to purchase the CDMA Network (the “**Purchase Option**”) under the Telecom CDMA Lease. The Purchase Option may be exercised, at the discretion of the Company, at any time during the term of the Telecom CDMA Lease or within one year after the expiry of the Telecom CDMA Lease. No premium has been paid or will be payable by the Company for the grant of the Purchase Option.

LETTER FROM THE BOARD

The Company and China Telecommunications Corporation will discuss and negotiate the purchase price with reference to the appraised value of the CDMA Network determined in accordance with applicable PRC laws and regulations and taking into account prevailing market conditions and other factors, provided that the purchase price shall not be greater than such price as would, taking into account all lease fee payments made by the Company under the Telecom CDMA Lease and all discounts for delay, enable China Telecommunications Corporation to recover its investment in the CDMA Network together with an internal rate of return on its investment of 8%.

Reasons for and Benefits of the Transactions Contemplated under the Telecom CDMA Lease

The Telecom CDMA Lease provides the Company with the exclusive right to use and operate an existing nationwide CDMA Network in the PRC owned by China Telecommunications Corporation, which will support and facilitate the provision of the CDMA telecommunications service by the Company, and provide the Company with the benefit from the fast-growing, attractive and profitable PRC mobile telecommunications market.

Under the Telecom CDMA Lease, China Telecommunications Corporation shall be responsible for making further investments into the CDMA Network to increase network capacity and improve network quality and functionality to support the Company to compete in the highly competitive PRC mobile telecommunications market and such investment costs will be borne by China Telecommunications Corporation, while the lease fee is payable by the Company with reference to the CDMA Service Revenue. As the annual lease fee is determined with reference to the CDMA Service Revenue, it will allow the Company to better estimate leasing costs, reduce operating risks and will avoid the Company having to incur depreciation and finance charges which may in turn result in saving of operating costs.

Under the Telecom CDMA Lease, the Telecom CDMA Lease is renewable at the option of the Company and the Company is also granted the Purchase Option which may be exercised at any time by the Company during the term of the Telecom CDMA Lease or within one year after the termination or expiry of the Telecom CDMA Lease. Such an arrangement will provide the Company with greater flexibility to utilise its resources in the most efficient way and to enhance shareholder value.

LETTER FROM THE BOARD

Annual Caps

Under Rule 14A.35(2) of the Listing Rules, in respect of a continuing connected transaction which is not fully exempted, a cap must be set and disclosed. The Annual Caps for the years ending 31 December 2011 and 31 December 2012, for the transactions contemplated under the Telecom CDMA Lease are set out below:

	Audited historical amount for the year from 1 January to 31 December 2009	Unaudited historical amount for the period from 1 January to 30 June 2010	Annual Cap for the year ending 31 December 2010	Annual Cap for the year ending 31 December 2011	Annual Cap for the year ending 31 December 2012
Telecom CDMA Lease	RMB7,220 million (equivalent to HKD8,205 million)	RMB5,902 million (equivalent to HKD6,707 million)	RMB35,000 million (equivalent to HKD39,773 million)	RMB21,000 million (equivalent to HKD23,864 million)	RMB33,000 million (equivalent to HKD37,500 million)

As far as the Directors are aware, none of the Annual Caps applicable to the Telecom CDMA Lease for the year ending 31 December 2010 has been exceeded as at the Latest Practicable Date. The consideration under the Telecom CDMA Lease will be satisfied in cash and no payment will be made on a deferred basis.

Each of the Annual Caps of the Telecom CDMA Lease for the two years ending 31 December 2011 and 31 December 2012 have been determined by reference to the existing scale and operations of the Company's CDMA operation, the historical lease fee and operating costs, and the business plan of the Company for the future two years.

The Annual Cap for the year ending 31 December 2011 decreased comparing with the existing Annual Cap for the year ending 31 December 2010 mainly because the Company is now in a better position to estimate the lease fee based on the historical CDMA Service Revenue for the years since October 2008.

The increase in the Annual Cap for the year ending 31 December 2012 is mainly attributable to the anticipated continuing growth and expansion of the Company's CDMA operation and increase of the lease fee. Since the Company commenced operations of the CDMA Service using the CDMA Network leased from China Telecommunications Corporation in October 2008, the CDMA operation has undergone robust growth and the scale of operations continues to expand. The mobile subscribers of the Company increased by 18.43 million in the first half of 2010 and the total number has reached 74.52 million, mobile service revenue amounted to RMB22,770 million, an increase of 77.7% from the previous year. It is anticipated that the continuing rapid growth of the scale and revenue of the CDMA Service will lead to a sharp increase of the lease fee for the Capacity under the CDMA Network accordingly.

As your Independent Board Committee, we have discussed with the management of the Company the reasons for entering into the Telecom CDMA Lease and the basis upon which the terms and Annual Caps have been determined. We have also considered the key factors taken into account by the Independent Financial Adviser in arriving at its opinion regarding the terms and Annual Caps of the Telecom CDMA Lease, as set out in the letter from the Independent Financial Adviser on pages 18 to 28 of the Circular, which we urge you to read carefully.

The Independent Board Committee, after taking into account, among other things, the advice of the Independent Financial Adviser, concurs with the views of the Independent Financial Adviser and considers that the terms of the Telecom CDMA Lease and its supplemental agreement are fair and reasonable so far as the Independent Shareholders are concerned and in the interests of the Company and the Shareholders as a whole, and the proposed Annual Caps for the Telecom CDMA Lease for the years ending 31 December 2011 and 31 December 2012 are fair and reasonable. Accordingly, the Independent Board Committee recommends the Independent Shareholders to vote in favour of the ordinary resolution to be proposed at the EGM to approve the continuing connected transactions contemplated under the Telecom CDMA Lease and its supplemental agreement, as detailed in the notice of the EGM set out at the end of the Circular.

Yours faithfully,

39/F One International Finance Centre,
1 Harbour View Street, Central, Hong Kong

8 September 2010

*To the Independent Board Committee and Independent Shareholders
of China Telecom Corporation Limited*

Dear Sirs,

RENEWAL OF CONTINUING CONNECTED TRANSACTION

INTRODUCTION

We refer to our appointment as the independent financial adviser to advise the Independent Board Committee and the Independent Shareholders in respect of the terms of (i) the renewal of the CDMA network capacity lease agreement (the “**Telecom CDMA Lease**”); and (ii) the proposed annual caps for the years ending 31 December 2011 and 2012 for the Telecom CDMA Lease (the “**CDMA New Caps**”) (collectively the “**Transactions**”). Details of the Transactions are set out in the circular of the Company dated 8 September 2010 (the “**Circular**”), of which this letter forms part.

This letter sets out our evaluation of the Transactions and our recommendation in relation thereon to the Independent Board Committee and the Independent Shareholders, and is prepared for inclusion in the Circular. Unless otherwise defined, all terms defined in the Circular shall have the same meanings herein.

China Telecommunications Corporation is the controlling shareholder of the Company, holding 70.89% of the issued share capital of the Company. Accordingly, China Telecommunications Corporation is the connected person of the Company and the Transactions constitute non-exempt continuing connected transactions for the Company and are subject to the reporting, announcement and independent shareholders’ approval requirements under Chapter 14A of the Listing Rules.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

The Company will convene the EGM for the Shareholders to consider and if deemed fit, approve the resolutions in respect of the Transactions. In accordance with the Listing Rules, China Telecommunications Corporation and its associates (as defined in the Listing Rules) will abstain from voting on the resolution in respect of the Transactions at the EGM. Any vote of the Independent Shareholders at the EGM shall be taken by a poll.

ING is independent from, and not connected with, the Company or any of its substantial shareholders, directors, chief executive, or any of their respective associates, and is accordingly considered qualified to give independent advice to the Independent Board Committee and the Independent Shareholders.

We were neither a party to the negotiations entered into by the Company in relation to the Transactions, nor were we involved in the deliberations leading up to the decision of the Directors to enter into the Transactions. We do not, by this letter, warrant the merits of the Transactions, other than to form an opinion, for the purpose of Chapter 14A of the Listing Rules, on whether the terms of the Transactions are fair and reasonable and that the entering into of the Transactions is in the ordinary and usual course of business, on normal commercial terms, and in the interests of the Company and its Shareholders as a whole.

PRINCIPAL FACTORS AND REASONS CONSIDERED

In formulating our opinion and recommendation regarding the Transactions, we have taken into account the following principal factors and reasons:

1. Historical relationships between the Company and China Telecommunications Corporation

The Company was incorporated in the PRC in September 2002. As part of its initial restructuring, China Telecommunications Corporation's telecommunication operations in Shanghai municipality, Guangdong province, Jiangsu province and Zhejiang province, together with related assets and liabilities, were transferred to the Company. After its initial public offering of H Shares and listing on the Stock Exchange and the New York Stock Exchange in November 2002, the Company acquired a number of telecommunications businesses and assets from China Telecommunications Corporation, as well as the CDMA telecommunications business from China Unicom Limited and China Unicom Corporation Limited. Today, the Group is an integrated information service provider with full-service capabilities, providing basic telecommunications services such as wireline telecommunications services and mobile telecommunications services, and value-added telecommunications services such as internet access services and information services in the PRC.

China Telecommunications Corporation, a state-owned enterprise established under the laws of the PRC on 17 May 2000, is the controlling shareholder of the Company, holding 70.89% of the issued share capital of the Company. Its principal business is the investment holding of companies involved in the provision of telecommunications services and specialised telecommunications support services in the PRC.

The Group has entered into various agreements with China Telecommunications Corporation and its provincial subsidiaries relating to the mutual provision of ongoing telecommunications and other services since 2002. These ongoing transactions include engineering services, ancillary telecommunications services, interconnection settlement, centralised services, information technology services, community services, supplies procurement services and property leasing. In addition, the Company entered into the Telecom CDMA Lease with China Telecommunications Corporation, effective from 1 October 2008 to 31 December 2010, to lease the capacity on the constructed CDMA cellular telecommunications network ("**CDMA Network**") from China Telecommunications Corporation to provide CDMA mobile communication services.

We note that the Company has had long-term cooperation with China Telecommunications Corporation.

2. Renewal of the Telecom CDMA Lease

2.1 Terms

The Company and China Telecommunications Corporation entered into the Telecom CDMA Lease on 27 July 2008 with a term expiring on 31 December 2010. The Telecom CDMA Lease can be renewed for further periods as agreed by both parties. The Company and China Telecommunications Corporation have on 25 August 2010 entered into a supplemental agreement to renew Telecom CDMA Lease, in accordance with its provisions, for a further term of two years expiring on 31 December 2012.

Pursuant to the Telecom CDMA Lease, China Telecommunications Corporation agreed to lease the Capacity under the CDMA Network to the Company and the Company shall have exclusive rights to use and operate the CDMA Network to provide CDMA Services in the Listed Service Areas (being Guangdong, Jiangsu, Zhejiang, Fujian, Liaoning, Shandong, Anhui, Hebei, Hubei, Jilin, Heilongjiang, Jiangxi, Henan, Shaanxi, Sichuan, Shanxi, Hunan, Hainan, Yunnan, Guizhou, Gansu and Qinghai provinces, and Beijing, Shanghai, Chongqing and Tianjin municipalities, and the Guangxi Zhuang, Xinjiang Uygur, and the Inner Mongolia, Ningxia Hui, and Xizang autonomous regions and other areas as may be agreed between the Company and China Telecommunications Corporation) during the term of the Telecom CDMA Lease.

Pursuant to the Telecom CDMA Lease, the Company and China Telecommunications Corporation determine the charges payable for the Telecom CDMA Lease based on 28% of the CDMA Service Revenue per year. Such CDMA Service Revenue is calculated by the service revenue generated by the Company in the course of operating its CDMA telecommunication business which shall be calculated by the total revenue from the CDMA Service under IFRS minus any upfront non-refundable revenue arising out of the CDMA Service and any revenue from sale of telecommunication products in connection with the CDMA Service. There is minimal annual leasing fee required for the years ending 31 December 2011 and 2012 (90% of the total amount of the lease fee paid by the Company to China Telecommunications Corporation in the years ending 31 December 2010 and 2011, respectively).

Pursuant to the Telecom CDMA Lease, if China Telecommunications Corporation fails to provide any Capacity which affects the provision of services by the Company, China Telecommunications Corporation shall, subject to certain exceptions, be liable to provide a discount for delay to the lease fee to the Company. In addition, the cost of network construction shall be borne by China Telecommunications Corporation, while the maintenance-related costs shall be shared as agreed between the two parties. Details of the discount for delay, the components of the cost of network construction and the sharing of the maintenance related costs are set out in the “**Letter from the Board**”.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

Pursuant to the Telecom CDMA Lease, the Company has the right to purchase the CDMA Network at any time during the term of the lease or within one year after the expiry of the lease. The purchase price shall be negotiated between the Company and China Telecommunications Corporation, with reference to the appraised value of the CDMA Network in accordance with applicable PRC laws and regulations and taking into account prevailing market conditions and other factors, provided that the purchase price shall not be greater than such price as would, taking into account all lease fee payments made by, and discounts for delays given to, the Company under the Telecom CDMA Lease, enable China Telecommunications Corporation to recover its investment and obtain an internal rate of return of 8% on its investment in the CDMA Network.

We note that there are no changes to the terms of the Telecom CDMA Lease. The Company only seeks to renew the Telecom CDMA Lease for a further term of two years to 31 December 2012.

As stated in the “Letter from the Board” of the Circular, the Directors (not including the Independent Board Committee whose opinion is set out in the “Letter from the Independent Board Committee” in the Circular) are of the opinion that the Telecom CDMA Lease and its supplemental agreement and the transactions contemplated hereunder have been entered into in the ordinary and usual course of business of the Group and on normal commercial terms which are fair and reasonable and are in the interests of the Company and the Shareholders as a whole.

2.2 Reasons for the renewal of the Telecom CDMA Lease

The Company began to offer mobile service in the fourth quarter of 2008 using the Capacity leased from China Telecommunications Corporation. The Telecom CDMA Lease will expire on 31 December 2010. The renewal of the Telecom CDMA Lease will provide the Company with the exclusive rights to continue to use and operate the nationwide CDMA Network owned by China Telecommunications Corporation. This will support and facilitate the Company’s operation and development of the CDMA Service.

Telecom CDMA Lease would allow the Company to use the CDMA Network without any immediate payment to acquire related facilities so that the financial burden of the Company would be reduced. In addition, Telecom CDMA Lease also grants the Company the right to purchase the CDMA Network at any time during the term of the lease or within one year after the expiry of the lease and at prices to be agreed between the two parties, which provides high degree of flexibility in term of the timing for the Company to acquire the CDMA Network (if the Company has this plan).

Shareholders should refer to the reasons and benefits considered by the Company in respect of the Transactions in the “**Letter from the Board**”.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

3. CDMA Annual Caps

As set out in the “**Letter from the Board**” of the Circular, the Company proposes to set the new annual caps for the Telecom CDMA Lease for the years ending 31 December 2011 and 2012 (“**CDMA New Caps**”).

3.1 Annual Caps for the Telecom CDMA Lease

The table below sets out the actual aggregate amounts transacted during the two years ended 31 December 2008 and 2009 and the six months ended 30 June 2010, the existing annual cap for the year ending 31 December 2010 and the new annual caps for the years ending 31 December 2011 and 2012 in relation to the Telecom CDMA Lease.

Note: After the deduction of the capacity maintenance related costs of RMB107 million, RMB1,163 million and RMB463 million for the years ended 31 December 2008 and 2009 and for the six months ended 30 June 2010, respectively, payable to the Company by China Telecommunications Corporation.

As far as the Directors are aware, the annual cap for the Telecom CDMA Lease for the year ending 31 December 2010 has not been exceeded as at the date of this letter.

3.2 Reasons for the Annual Caps

In determining whether the CDMA New Caps proposed by the Company are fair and reasonable and are in the interests of the Company and its Shareholders as a whole, the Management has provided us with information on the bases for setting the Annual Caps.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

We note that the CDMA New Caps for the years ending 31 December 2011 and 2012 is RMB21 billion and RMB33 billion, respectively. The Management has confirmed that the CDMA New Caps are determined with reference to (i) no change expected in the charges payable for the Telecom CDMA Lease, being 28% of the CDMA Service Revenue per year; (ii) the Company's view of the mobile industry trend, including the increase of mobile service revenue; (iii) the operation costs to be shared between the Company and China Telecommunications Corporation, including CDMA network maintenance costs, the rental fees for the exchange centres and the base stations, and other related fees (such as water and electricity charges, heating charges and fuel charges for the relevant equipment); and (iv) the expected CDMA network capacity lease fees for the years ending 31 December 2011 and 2012, based on the actual figures incurred for the year ended 31 December 2009 and for the six months ended 30 June 2010 respectively.

We have discussed with the Management the basis of determining the CDMA New Caps, the strategies adopted by the Company and the historical performance of the CDMA Service. We are of the view that the CDMA New Caps for the years ending 31 December 2011 and 2012 of RMB21 billion and RMB33 billion, respectively, reflect the Company's expectation of the growth of the CDMA Service as part of the Group. We note that the CDMA New Cap for the year 2011 is 40.0% lower than the existing annual cap for the year 2010. We further note that the CDMA New Cap for the year 2012 is 57.1% higher than that for the year 2011. This takes into account the Company's implementation of the integrated packaging operation of wireline, mobile and internet services, insisting on the differentiated development strategy by providing customers with differentiated services, and further capturing the opportunities for the development of mobile internet. We note that by doing this, the Company strives to expand the CDMA subscriber base and achieve profitable scale development.

2009 saw the first full-year impact of the CDMA acquisition and mobile service has become one of the main drivers for the growth of the Group's operating revenue. The Group achieved total mobile revenue of RMB35,620 million for the year ended 31 December 2009, compared with RMB6,127 million for the year ended 31 December 2008. Mobile revenue accounted for 17.0% of the Company's operating revenue in 2009. In term of subscribers, the Company added approximately 28 million CDMA subscribers to expand its subscriber base to approximately 56 million by the year ended 31 December 2009, doubling the number with an increase rate of 101.0% from the year ended 31 December 2008. As at 31 December 2009, there were approximately 56 million CDMA subscribers and the Group had approximately 189 million wireline subscribers. We believe that there is a further potential to grow the number of CDMA subscribers by selling to the Group's existing wireline subscribers.

Sources: China Telecom 2009 Annual Report and other materials, as disclosed in the Company's website

For the six months ended 30 June 2010, there were 18.43 million net added mobile subscribers and the total mobile subscribers reached 74.52 million by the end of the period. The Company achieved mobile revenue of RMB25.09 billion for the six months ended 30 June 2010, an increase of 56.8% over the same period up to 30 June 2009. We note that the Company continually registered significant growth in its CDMA Service in the first half of 2010.

Based on the foregoing, we are of the opinion that the CDMA New Caps for the years ending 31 December 2011 and 2012 is fair and reasonable, and in the interests of the Company and its Shareholders as a whole so far as the Company and the Shareholders are concerned.

4. Annual review of transactions under the Telecom CDMA Lease

Under the Listing Rules, each year, the independent non-executive directors of the Company ("**Independent Non-Executive Directors**") must review the transactions under the Telecom CDMA Lease and confirm in the Company's annual report and accounts that the same have been entered into:

- (1) in the ordinary and usual course of business of the Company;
- (2) either on normal commercial terms or, if there are not sufficient comparable transactions to judge whether they are on normal commercial terms, on terms no less favourable to the Company than terms available to or from (as appropriate) Independent Third Parties; and
- (3) on terms that are fair and reasonable and in the interests of the Shareholders as a whole.

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

The Company will also be required to comply with all other continuing obligations under the Listing Rules, including confirmation from its auditors that the CDMA New Caps have not been exceeded. In addition, in respect of the written agreements to be entered into, to the extent that the terms are materially different from those of the existing written agreement, the Company will publish an announcement and will re-comply with the reporting and announcement and/or independent shareholders' approval requirements under Chapter 14A of the Listing Rules.

CONCLUSIONS AND RECOMMENDATION

Having analysed and considered the principal factors as set out above, we would like to draw Shareholders' attention to the following key factors, which should be read in conjunction with, and interpreted in, the full context of the Circular, in arriving at our conclusion:

- (i) the Company has a historical unique relationship and long-term cooperation with China Telecommunications Corporation;
- (ii) The Company began to offer mobile service in the fourth quarter of 2008 using the Capacity leased from China Telecommunications Corporation. The Telecom CDMA Lease will expire on 31 December 2010. The renewal of the Telecom CDMA Lease will provide the Company with the exclusive rights to continue to use and operate the nationwide CDMA Network owned by China Telecommunications Corporation. This will support and facilitate the Company's operation and development of the CDMA Service;
- (iii) Telecom CDMA Lease would allow the Company to use the CDMA Network without any immediate payment to acquire related facilities so that the financial burden of the Company would be reduced. In addition, Telecom CDMA Lease also grants the Company the right to purchase the CDMA Network at any time during the term of the lease or within one year after the expiry of the lease and at prices to be agreed between the two parties, which provides high degree of flexibility in term of the timing for the Company to acquire the CDMA Network (if the Company has this plan);
- (iv) the Company seeks to renew the Telecom CDMA Lease for a further term of two years to 31 December 2012. There are no other changes to the agreement;
- (v) the CDMA New Caps for the years ending 31 December 2011 and 2012 are RMB21 billion and RMB33 billion respectively, which are determined with reference to, inter alia, the actual aggregate amounts transacted in 2009 and the six months ended 30 June 2010, and the further potential to grow the number of CDMA subscribers and revenue by fully implementing the Company's strategy to utilise its resources;

LETTER FROM THE INDEPENDENT FINANCIAL ADVISER

- (vi) the services in relation to the Transactions will be subject to annual review by the Independent Non-Executive Directors who will confirm whether the services are carried out in the ordinary and usual course of business of the Company, on normal commercial terms or on terms no less favourable to the Company than terms available to or from Independent Third Parties, and on terms that are fair and reasonable and in the interests of the Shareholders as a whole.

Based on the above, we are of the opinion that the renewal of the Telecom CDMA Lease is in the ordinary and usual course of business and that the terms of the renewal of the Telecom CDMA Lease and the CDMA New Caps are fair and reasonable so far as the Independent Shareholders are concerned and are in the interests of the Company and its Shareholders as a whole. Therefore, we advise the Independent Shareholders and the Independent Board Committee to recommend that the Independent Shareholders, to vote in favour of the ordinary resolution to be proposed at the EGM in relation to the Transactions.

Yours faithfully,
For and on behalf of
