

[For Immediate Release]

China Telecom Won Two Awards at the 2025 International ESG Annual Awards

Hong Kong, November 14, 2025 – The ceremony of 2025 International ESG Forum of Hong Kong and Annual Awards, organized by Hong Kong Ta Kung Wen Wei Media Group, was held at the Hong Kong Convention and Exhibition Centre. China Telecom Corporation Limited ("China Telecom" or the "Company") has been honored with two prestigious awards — the "Best ESG Pioneer Award" and the "Best ESG Information Disclosure Award"—in recognition of its outstanding performance in environmental, social, and governance (ESG) practices. These accolades serve as a strong affirmation of China Telecom's long-term commitment to sustainable development.

The 2025 International ESG Forum of Hong Kong and Annual Awards brought together over 300 representatives from Hong Kong's political and business sectors, listed companies from Chinese mainland and Hong Kong, financial industry, and the academic community. The event is aimed to recognize enterprises that have achieved remarkable results in environmental, social, and governance aspects, setting industry benchmarks, encouraging more market participants to engage in green transformation, and supporting Hong Kong in becoming a globally influential green fintech hub.

China Telecom's winning of these two awards demonstrates the industry's recognition of the Company's dedication to green development. Adhering to the concept of "Create a Better Future with Digital Technologies", the Company actively fulfils its responsibilities to the nation, its shareholders, customers, employees, the environment and social welfare. Leveraging sci-tech innovation to drive its development, the Company carries out implementation of its responsibility performance concentrating on digital empowerment, green development, security development, inclusive development and modern governance. The Company serves the people and empowers thousands of industries, and also works together with its partners to build an open and win-win ecology and strives to make constant contributions to the accomplishment of SDGs of the United Nations as well as the sustainable development of the economy, society and environment. In the future, China Telecom will further deepen comprehensive reforms, accelerate the high-quality development, continue to work together with stakeholders, uphold the concept of sustainable development, and contribute its strength to Chinese modernization.
